### **Update 5.0.0.6 is Available for Downloading**

The updated version 5.0.0.6 is now available for download.

Since my last newsletter, Dave has posted updates 5.0.0.5 and now 5.0.0.6 is posted and the updates have taken care of minor aggravating program errors that caused some program crashes and a few more grey hairs.

Rest assured that all is good and you are not missing any important information about the updates.

If you find an error or a cause for concern, please contact us and the issue will be addressed quickly.

Enjoy your weekends and its time to get back on the water.
