ISSUE 07

VOL. 19

Editor: Jeff Clark

jclarksr94@gmail.com

Programmer: Dave Allen

This newsletter is for you, the user, to inform you of problems that have been sent in from scorers across the nation and the solutions for those problems. We will be sending this out from time to time to keep you informed and assist you in usage of the program. If you have a problem or issue that needs to be addressed send an email to the editor and we will get your problem addressed immediately and keep all of the users informed of the problems/solutions involved.

Update 5.0.1.14 is Available for Downloading

The updated version 5.0.1.14 is now available for download. Dave has removed the bugs that were in the Slalom Entry and Slalom Summary sections of the program and they are working correctly now.

Update Download Error

You will receive an error popup screen during the updating of your database and you can ignore this and click OK. The update is adding a column to the database to handle new enhancements to the program.

New Running Order Option

A scorer asked Dave to add a new feature to preparing Running Orders; It would be super duper cool if when I set the DIV order, I could also set Day and Lake, that way the morning of the event, I don't have to re-click all the little running order division buttons to print Judges and scorers recap sheets. That would make it really easy to re-print running orders too, just for a specific day or lake. (I don't like printing the recap forms at the beginning of the tournament, because there are inevitably changes throughout the days)

Dave has added a feature to all of the Running Order screens to save the group filter checks, e.g. which boxes were checked and unchecked. Included with the filters, the program also saves the Print Header. A name can then be assigned to the saved information and then retrieved at your convenience.

AWSA & IWWF Records

All of the AWSA records have been updated and either the event records or the benchmarks are correct for all of the AWSA age divisions. The IWWF records have also been updated.

Enjoy your fall and while many of you are preparing for the winter months, we are still going strong in the warmer states.
