

WSTIMS FOR WINDOWS USERS NEWSLETTER

May 27, 2020

ISSUE 03

VOL. 20

Editor: Jeff Clark

jclarksr94@gmail.com

Programmer: Dave Allen

This newsletter is for you, the user, to inform you of problems that have been sent in from scorers across the nation and the solutions for those problems. We will be sending this out from time to time to keep you informed and assist you in usage of the program. If you have a problem or issue that needs to be addressed send an email to the editor and we will get your problem addressed immediately and keep all of the users informed of the problems/solutions involved.

Update 6.0.1.2 is Available for Downloading

The updated version 6.0.1.2 is now available for download. This update fixes a few bugs and some new options for us to use.

Downloading Files Protocol

Microsoft and their various vendors/users are moving from Internet Explorer to Edge more and more each day. USA-WSWS sanctioning system and all of the associated files are Microsoft based as is WSTIMS and Internet Explorer and Edge are the only options for these programs. As a refresher note, when you are notified that an update is available, always take the download, if you refuse it you will not be notified in the future when there is an update available and this is because you broke the chain of notifications when you refused the last update. To fix this issue you will need to go to the WSTIMS website and download the program from there and then you will receive update notifications going forward.

Just a reminder, when you are downloading an update and a Blue screen comes up saying the site is not to be trusted, look at the end of the notification paragraph and you will see "more info", click on the words and a new screen will appear and you will see a "run anyway" button, click on this and everything will download and you will be ready to go.

NCWSA Team Summary Report

For collegiate tournaments the team detail only shows the skier detail for those that were used to calculate the team score. The NCWSA requested a change and now all skiers will now show on the summary report but those skiers after the top four (4) will have a placement of ** to indicate their scores were not counted for the teams total score.

Scoring More Than Six Flips

When the six (6) flip limit has been exceeded, the six (6) highest point valued flips should be selected and the other lower valued flips, are to be marked as repeats by the scorer manually.

Added Newly Required End Course Event Judge To Event Officials List

It's now mandatory in both AWSA and IWWF tournaments to have an official assigned to monitor the End Course video in record tournaments. There have been some issues with boat path at some tournaments and there have been post tournament video reviews conducted with skier scores being changed in scorebooks and on the AWSA and IWWF Ranking lists. Depending on which rulebook is applicable, it would be either a driver or a judge assigned as the official. Those who have been involved in any of the reviews would find it very helpful if there was a record of who was working that position. Dave has added "Event Judge End Course" to the Officials Work Assignments list.

Thanks, stay safe and enjoy your summer, Dave and Jeff
