Programmer: Dave Allen

This newsletter is for you, the user, to inform you of problems that have been sent in from scorers across the nation and the solutions for those problems. We will be sending this out from time to time to keep you informed and assist you in usage of the program. If you have a problem or issue that needs to be addressed send an email to the editor and we will get your problem addressed immediately and keep all of the users informed of the problems/solutions involved.

Update 6.0.1.6 is Available for Downloading

The updated version 6.0.1.6 is now available for download. The last update to 6.0.1.5 was to add functionality for new software that is under development so that testing could be done and we will give you the details when it is ready for prime time.

State Member Export

Several of our scorers have asked for an option to download a list of all of the membership information for a state. Dave has developed this option and you can download the list to a tab delimited text file so that you can search for all of the members for a state and then save them to a file.

Go to >Tournament > Registration >Add >in state cell enter two letter abbreviation for the state >click Export tab >in tournament folder - Name your file > click save. Your download is now in your tournament folder.
