## **Update 5.0.0.8 is Available for Downloading**

The updated version 5.0.0.8 is now available for download. This update has a new option for Regionals and Nationals Regional Team imports, correcting errors in IWWF rules scored tournaments and updated records.

## **NEW OPTION TO IMPORT REGIONAL TEAMS**

Created a team setup work sheet that will assign skiers to teams. It will use the Member Id if available otherwise it will attempt to match on the skier's name. The name must be in the format of "Last Name, First Name" and needs to be the name as specified in the registration. There will be an additional attempt to match on just the last name with the combination of the division and event assignment.

The New Team Registration Template is now available and can be downloaded here. Regional Chief Scorers need to send this on to your state/regional team coordinators;

## **IWWF OVERALL SUMMARY ERROR CORRECTED**

The Overall summary was not calculating the overall correctly in the Junior Women (JW) and International Women (IW) divisions and this error has been corrected.

Keep in mind that this applies only to the program since the IWWF and AWSA Ranking lists calculate the overall scores when the event scores are uploaded to the IWWF and AWSA ranking systems.

### **IWWF RAMP HEIGHTS INCORRECT FOR JUNIOR MEN**

All of the ramp height options were not included in the Junior Men (JM) jump scoring panel and this has been corrected.

### **UPDATING REGISTRATION TEMPLATE DATA**

Dave reviewed the data import procedures when a scorer imported an updated registration template for a tournament and has updated the data imported, so that only the skiers ranking scores and officials rating columns will be updated. All other data imported or revised by the scorer will not be updated.

### **THE RECORDS DATA HAS BEEN UPDATED**

The records for the AWSA, NCWSA and IWWF have been updated.

Thanks and enjoy your holiday, Jeff and Dave
