Programmer: Dave Allen

This newsletter is for you, the user, to inform you of problems that have been sent in from scorers across the nation and the solutions for those problems. We will be sending this out from time to time to keep you informed and assist you in usage of the program. If you have a problem or issue that needs to be addressed send an email to the editor and we will get your problem addressed immediately and keep all of the users informed of the problems/solutions involved.

Update 5.0.0.9 is Available for Downloading

The updated version 5.0.0.9 is now available for download. We are getting ready for the regional tournaments next week and have corrected one problem and prepared the program to handle the 3.03F option for Overall skiers.

Corrected Error In New Template Import

The program was not handling the event class attributes correctly in the new template import process and this error has been corrected.

Added Processing To Handle 3.03F Option For Overall Skiers

The program will now process the extra scores in a round for an Elite skier in slalom, trick and jump when they are utilizing the 3.03F options. This involves an Elite skier participating in age division events for an Overall score.

All Records Have Been Updated To The Latest Approval Date 7/20/18.

Have fun at your regionals and good luck.
