# WSTIMS For Windows
## Fix List

| Status | Priority | Program Version | Component | Issue | Notes |
|---|---|---|---|---|---|
| Closed | H | 7.0.3.3 | Slalom Entry | When a pass is deleted it should send a delete to Live Web when connected.  When first pass is deleted that doesn't seem to be happening. | Fixed issue to be sure all passes are deleted |
| Closed | H | 7.0.3.3 | Jump Entry | When a pass is deleted it should send a delete to Live Web when connected.  When first pass is deleted that doesn't seem to be happening. | Fixed issue to be sure all passes are deleted |
| Closed | M | 7.0.3.3 | Jump Entry | I noticed something odd/bug scoring collegiate jump. With the two and done rule in jump, after the second fall, I press skier done button. The box pops up for reason. The box has shown the last reason entered. Such as "2 falls and done". You can't just press ok, you have to either type it again, or add another letter.<br>The reason used in this case is 99% the same. It's odd that you can't just select ok and use the same reason. | I noticed that the SkierDone dialog was not properly initializing the SkierDone reason property display field.  This was making it apear that there was already text in the box but it was not being recognized in the code |
| Closed | H | 7.0.3.3 | Sort Dialog | If a column is defined more than once in the sort order the sort statement will fail. | Add a check to the OK button handler to validate that a column is not defined more than once. |
| Closed | M | 7.0.3.3 | Tour Setup | Unclear error message when retrieving a sanction from central database fails.  It should fail for either an incorrect edit code or the sanction is not or sanction has not yet been approved. | Fixed error message to be more clear.  Fixed window initialization when sanction not found. |
| Closed | L | 7.0.3.3 | Import Data | Collegiate skiers are required to electronically sign a waiver for each event. There is a WaiverStat attribute on the Team Rotations table.  It is being included on the import but nothing is done with it. | Added functionality to the import for collegiate tournaments to check for the EventWaiver attribute and a note is added to the MemberStatus attribute on the Registration window |
| Closed | H | 7.0.3.3 | Trick List | There are 5 wakeboard tricks that need the points corrected.<br>SL7B 188, FFLBB 225, BFLSLBB 225, 7B 33, 7F 33 | |
