

## WSTIMS For Windows Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	4.0.0.1	Slalom Entry	Instead of using a dialog box to ask about the next pass for speed or line, use a an area with 2 radio buttons. Set this area in focus rather than opening the dialog box. Ensure that the ENTER key will select the activate the last selected or default value and go to the next pass.	
Closed	L	4.0.0.1	Slalom Entry	Be sure the handicap and handicap base are on the running order pane in the expanded visible area	
Closed	L	4.0.0.1	Trick Entry	Be sure the handicap and handicap base are on the running order pane in the expanded visible area	
Closed	L	4.0.0.1	Jump Entry	Be sure the handicap and handicap base are on the running order pane in the expanded visible area	
Closed	H	4.0.0.1	View Trick List	Exception thrown when opening the View Trick List window	One of the attributes had a change to increase the size of the field and it was being handled in the view window. This has been corrected.
Closed	H	4.0.0.1	Records	Updated records for AWSA, IWWF, and NCWSA	completed
Closed	L	4.0.0.1	Slalom Entry	Add support for requesting a reride when there was a failure of the timing system	Allowed the used of "None" to be entered in the time cell for a slalom pass. This will enter a negative value for the time to be treated as a pass without a time
Closed	L	4.0.0.1	Slalom Summary	6 skiers tied for 3rd thru 8th, 3 tie for 3rd, 2 should tie for 6th, and 1 in 8th. Tie breaking not picking up tie for 6th
