

## WSTIMS For Windows Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	4.0.0.3	Slalom Entry	Scored a class C skier with slow time with an improved score and it handled it ok Same situation but skier in class L and it allowed the score to be improved on the slow time. IWWF does not allow this. IWWF 14.03	Fixed issue to ensure a skier in ELR event can't improve score on re-ride for slow time
Closed	L	4.0.0.3	NCWSA Records	8. NCWSA records CWS the details are missing – names of record holders	Record issue that was causing the data to be dropped during import
Closed	L	4.0.0.3	Slalom Entry	Default Speed/Line selection button based on the last value used.	Selection button will default to Speed but will default to Line if the previous pass selection was to shorten the line
Closed	L	4.0.0.3	Slalom Entry	Would like to have the default speed be set to the original division maximum rather than than 36 or men and 34 for women	Now defaults to previous division max speed
Closed	L	4.0.0.3	Jump Entry	Support to handle situations when timing system did not get a time.	Add support for entering "None" in any of the time cells. It will be replaced by a value of .01 and force a reride scenario
