

**WSTIMS For Windows**  
**Fix List**

<b>Status</b>	<b>Priority</b>	<b>Program Version</b>	<b>Component</b>	<b>Issue</b>	<b>Notes</b>
Closed	H	4.0.0.5	Slalom Entry	I was looking at the G3 and M7 skiers that had pulled gates. It looks to me like the total buoys is correct and the speed and line length represent the final pass with the missed gates but rather than having a final number of buoys of zero it is showing 6. I'm seing in the code where this is happening.	The last pass score was being changed to 6 when calculated to zero. Unsure why that was happening.
Closed	L	4.0.0.5	Slalom Pass Detail Export	Create a new report for export purposes to be used for finding slalom pass video for gate and boat path analysis	Added as an option in the slalom menu
