

## WSTIMS For Windows Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	4.0.1.9	Jump Entry	Last pass has the best score but it is not being identified and saved as the skiers best score. Several examples	There was an issue if the distances were entered before all the boat times. The program was not recalculating the skiers score for the round with the pass. This has been corrected so that the score will be recalculated if the times are entered after the distances. The program has also been updated to recognize when a time value has been deleted or changed.
