

## WSTIMS For Windows Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	5.0.0.3	Trick Entry	When all passes are deleted but the skier is still showing a score of zero for the round	The round score for the skier should be deleted when all passes are deleted
Closed	M	5.0.0.3	Jump Entry	Try to improve the boat selection. It does not always work smoothly. Either the double click or hitting enter seems a bit finicky	Added a select button to make boat selection operation smoother. Eliminate the use of the ENTER key which didn't work very smoothly.
Closed	M	5.0.0.3	Jump Entry	Add a refresh option for the boat list so the window does not have to be closed to refresh the boat list.	Add a refresh button for the boat selection list that will retrieve the current boat list in case it has been modified.
Closed	M	5.0.0.3	Slalom Entry	Try to improve the boat selection. It does not always work smoothly. Either the double click or hitting enter seems a bit finicky	Added a select button to make boat selection operation smoother. Eliminate the use of the ENTER key which didn't work very smoothly.
Closed	M	5.0.0.3	Slalom Entry	Add a refresh option for the boat list so the window does not have to be closed to refresh the boat list.	Add a refresh button for the boat selection list that will retrieve the current boat list in case it has been modified.
Closed	M	5.0.0.3	Trick Entry	Try to improve the boat selection. It does not always work smoothly. Either the double click or hitting enter seems a bit finicky	Added a select button to make boat selection operation smoother. Eliminate the use of the ENTER key which didn't work very smoothly.
Closed	M	5.0.0.3	Trick Entry	Add a refresh option for the boat list so the window does not have to be closed to refresh the boat list.	Add a refresh button for the boat selection list that will retrieve the current boat list in case it has been modified.
Closed	H	5.0.0.3	CodeValueList	So far I have been leaving previous year boats in the available selection. I have started adding model year to the information to help with the selection process. I might need to improve the sorting on this to make selection easier.	Added entries to bottom of list, 1 for each manufacturer. Entries and generic for any boat prior to 2014
Closed	H	5.0.0.3	CodeValueList	Add boats for 2018	Added 2018 boats. There were no changed entries
Closed	L	5.0.0.3	Slalom Entry	Show handicap results next to regular score	Added box to show the skiers score using the available handicap for the skier.
Closed	M	5.0.0.3	Team Summary	Add filters to the AWSA Special Team Summary. I want to be able to show results filtered by event and skier category	Done. Must run report first and then filters are allowed and these filtered results can also be printed
Closed	H	5.0.0.3	Trick Calc	Program is crashing with an exception when the score is being saved.	Found the issue that was causing the exception when the score was being calculated
Closed	H	5.0.0.3	Trick Calc	Skier showing as being active after all passes have been deleted.	Cleaned up save processing to recognizing when all passes have been deleted.
Closed	H	5.0.0.3	Registration Import	Issues encountered importing the collegiate registration template. When a skier is on both the A and B team the import is not handling this situation.	Enhanced processing to properly handle creating an addition registration entry when skier is on both the A and B team
Closed	H	5.0.0.3	Slalom Entry	For a collegiate tournament exporting non team skiers is not working, no entries exported	There was an issue with the filtering when selecting the data to be exported. This has been corrected.
Closed	H	5.0.0.3	Trick Entry	For a collegiate tournament exporting non team skiers is not working, no entries exported	There was an issue with the filtering when selecting the data to be exported. This has been corrected.
Closed	H	5.0.0.3	Jump Entry	For a collegiate tournament exporting non team skiers is not working, no entries exported	There was an issue with the filtering when selecting the data to be exported. This has been corrected.
