

WSTIMS For Windows
Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	6.0.1.12	Registration	Exception encountered when clicking on an event and then moving to the next line	An incorrect validation was added last release. This has been corrected
Closed	M	6.0.1.12	Official Work Assignments	Would like to improve searching for and selection official names	Enhancement behavior for searching and selecting officials. Start typing in the member name cell and then hit ENTER. The list of available officials is shown position to the name closest to the characters entered. If the positioning is on the desired selection simply press ENTER. The name will be transferred to the official assignment box and then positioning will be set in the beginning time cell. Pressing ENTER again will save this row and position in the official
