

WSTIMS For Windows
Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H		Record Export	Make sure deviation for all passes is included on export	
Closed	H	7.0.1.7	Slalom Pass Detail Exp	Delete report. Being replaced by Boat Path Report	Remove option to select this report. I haven't deleted the report window in case it is needed in the future.
Closed	H	7.0.1.7	Boat Path Report	What happens if there is more than one Driver assigned to the group. When there is more than one driver assigned to an event group it will also be a problem for the Boat Path Report. I'm unsure how I'm going to resolve that for the report. I might be able to resolve it by using the driver name that I associate with the boat path data but right now I haven't done anything to validate that the driver associated with the boat path data is a driver in the assignments which I consider paramount. So I need to resolve	Eliminated duplicate lines caused by multiple drivers assigned. Update report to show 2 driver columns, 1 for the driver returned from SurePath and 1 to show the first driver assigned to the group.
Closed	H	7.0.1.7	Trick Calc	Trick window is failing top and is causing the program to termination	Fixed window load
Closed	H	7.0.1.7	Live Web	Exception encountered when attempting to send scores to Live Web	During the off season some new attributes were added to the scoring tables to support an insert date but this was not being formatted properly when sending to the Live Web. Fixed the date formatting
