WSTIMS For Windows
Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	L	7.0.2.6	Jump Entry	Currently system allow distance to be entered when pass as a fall but this should be prevented	Added checks to prevent a score from being entered when jump marked as a fall. Also ensured that the distances provided by the video measuring system are not entered if jump marked as a fall
Closed	H	7.0.2.6	Slalom Entry	Need to better sync up format of Boat Path grid with SurePath Judge's App I think WSTIMS deviation screen should be the same as SP Judges sceen; and the names above should be the same. The Scores don't need to know the tolerance, so that should be hidden. THEN WE ARE ALL ON THE SAME PAGE; because the SP Judges Screen is same as Rover display.	I have adjust the columns and titles to closely match the Judges App. I have left the tolerances in the grid because I have found it very useful and do feel it is useful for scorers.
Closed	H	7.0.2.6	Jump Entry	See slalom	
Closed	M	7.0.2.6	Boat Path Report	I thought when a skier's score was less than 6, the SurePath display would only show the segments for the score obtained. For example, a score of 2 only showed through the deviations to B2. I noticed that the display was showing through the segment after the obtained score. So in my example the display included deviations to B3.	The display is correct and the "score" column of the boat path grid indicates which position is appropriate. It matches the same point that the time is used.
Closed	M	7.0.2.6	ImportData	There was an error when importing registrations for pick and choose events. A running order for rounds beyond the 1st round were not being generated.	Fixed issue to generated running orders beyond the 1st round.
Closed	L	7.0.2.6	Official Work Assignme	For aspiring officials and roles such as dock starter not showing full participant list	Fixed filter to display all available participants for roles not requiring a specific rating
Closed	H	7.0.2.7	Slalom Entry	Exception encountered when deleting a pass	Encountered a null current row on the data grid. Fixed
Closed	H	7.0.2.7	Jump Entry	Exception encountered when deleting a pass	Encountered a null current row on the data grid. Fixed
